**PEPPER STICK**  
**CABANOSI**  
**LANDJÄGER**  
**MINI-SALAMI**

### SNACK OPPORTUNITIES /

The snack market is growing and is an important area for the food industry. The move towards smaller portion sizes and package weights is being driven by consumer demand for convenient and nutritious meat products. Sausage products sold in this sector of the market include fermented, mould coated, dried and small diameter cooked sausages. With the range of clear and coloured products from Devro there is a casing to suit any of your snack product requirements.

### SIZES AND VARIETIES /

Casings can be supplied with open or closed ends in sizes from 13mm to 22mm with length to suit your particular processing demands. Coloured casings are also available to enhance the shelf appeal of your products.

### STORAGE CONDITIONS /

Store unopened cartons cool and dry (5°C to 15°C).  
Reseal opened packages in an airtight container or bag to prevent moisture loss.

### TECHNICAL SUPPORT /

Worldwide service support is available through our qualified technicians, development facilities and an extensive distributor network.

### QUALITY STANDARDS /

Casings are manufactured in accordance with the International Quality Standards ISO 9002.
