

Linking everything together

# Linking everything together

Two leading global brands in sausage casing. Now integrated to bring the very best for you and your customers.

Trusted partnerships make us who we are. They define how we'll work with you, as one team, to thrive in a demanding market – without ever compromising on quality.

By linking local knowledge with global reach, established methods with new processes, and natural

casings with collagen casings and gels, we deliver the products and solutions you need – when you need them.

From technology to circularity, optimization to innovation, you can rely on us for expert advice and support.

**Because together, we're VH Devro.**

## **Efficiency everywhere**

Drawing on an extensive portfolio and unrivalled technical support, VH Devro brings efficiency into every link in the chain – from product development to processing and on to the consumer's plate.

## **Global to local**

Over 110 countries rely on us for quality assurance and traceability. We share our global knowledge and link it to local markets to help you extend your supply chain and further your ambitions.

## **Productive innovation**

Our integrated approach helps us to co-create new products and improved performance, so you can boost productivity, increase market share and keep on delighting customers.

## **Sustainable value**

We see and respect the value of our products, using our knowledge to minimize waste and reduce our environmental footprint. Sustainability is not just good for business, it's better for all of us.

## **Range and scale**

We have a proud heritage of local expertise in supply and solutions. This links closely to our global perspective in product development which means we can offer continuity, quality and reliability everywhere.

DEVRO

# Leading experts in the production of collagen casings and gels

The world loves sausages and so do we. For over 90 years, we've helped put protein on plates with collagen casings and gels that make this popular and affordable food possible. And as markets and consumers' tastes evolve, our appetite for success grows - as producers and innovators.

Working together with our customers and distributors across the globe, we develop new ideas which expand their product range and market share. We do this by offering the most comprehensive and highest quality portfolio, backed up by unrivalled technical support.

Our people are key to our success. With over 2,000 colleagues across the globe, we're proud to be part of the most curious, courageous, committed, connected and caring team there is.

We share a culture that empowers every colleague to build a better future – for themselves, our business, our customers, our communities and our planet.

## Global player in harvesting, processing and distribution of natural casings

Van Hessen is the leading global player in the harvesting, processing and distribution of natural casings, meat products and pharmaceutical products. Thanks to our worldwide operation of gutrooms inside slaughterhouses, Van Hessen is able to operate close to the source and secure a constant flow of raw material for our customers. By controlling and supervising all steps in the process of the supply chain, we can guarantee high quality products.

Our dedication to our customers starts right at the slaughterhouse – ensuring the best and most consistent products. We operate on a fully integrated basis, with dedication in the entire chain

from procurement, production until distribution. In addition, we have a generation long dedication to training craftsmen ensuring the best professionals in the industry work throughout our supply chain.

Our positioning in the supply chain in combination with our dedicated and professional people result in high quality, consistent and effective products for our customers.
