COOKIES POLICY

What are cookies?

Cookies are small data files that are received in the terminal from the visited website and are used to record certain browsing interactions on a website storing data that can be updated and retrieved. These files are stores on the user's computer and contain anonymous data that is not harmful to your computer. They are used to remember user preferences, such as the selected language, access data or personalization of the page.

Cookies can also be used to record anonymous information about how a visitor uses a site. For example, from which Web page you have accessed, or if you have used an advertising banner to get there.

What use do we give to different types of cookies?

According to its purpose:

Technical cookies	Technical cookies are those that facilitate user navigation and the use of the different options or services offered by the web such as identifying the session, allowing access to certain areas, facilitating orders, purchases, filling in forms, registrations, security, facilitate functionalities (videos, social networks…).
